## **DETAILED ACTION**

### ***Examiner's Comments***

1. This action is in response to applicant's amendment received 27 March 2005 and subsequent phone conversation wherein applicant's attorney has given authorization for the changes detailed below.

### ***Drawings***

2. Applicant's amendment to Figure 1 is acknowledged; however, the drawings are objected to because they are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

### ***Examiner's Amendment***

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jason Lin at 408-867-9757 on 1 June 1, 2005.

The application has been amended as follows:

In claim 3, line 11 was replaced with --chutes; and after said above mentioned steps,--;

Claims 4-6 were cancelled.

Art Unit: 3721

***Reasons For Allowance***

4. The following is an examiner's statement of reasons for allowance: The prior art of record fails to anticipate or obviate in combination a method of assembling a spindle wherein following the assembly the spindle with an elastomer, fixing a base at a bottom end of the spindle, capping the spindle and elastomer with a sleeve, depressing the sleeve downward towards the base and disposing a ball in a chute located on the spindle, a C-shaped plate is disposed between the elastomer and the base by inserting the spindle through a side opening of the C-shaped plate. All pending claims are now allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Turchan, Larimer and Bartholomew are cited to show related references.
